## Her Name.

She was round and she was ruddy,  
And her cheeks were like the rose;  
And she weighed at least one-eighty,  
As the hay scale record shows.  
She was sound as any dollar,  
And no stronger girl you've met;  
Yet this big and robust creature  
Had been christened Violet.

## MASON CIRCUIT COURT

Judge Newell Overrules Motion to Transfer \$50,000 Damage Suit of J. B. Shaw vs. C. & O., to Federal Court.

When Circuit Court met yesterday morning the Grand Jury reported indictments as follows, and then recessed until next Wednesday:

Charles W. Evans, grand larceny. James Banks, detaining a woman. Penrice Best, wilfully and maliciously cutting another with intent to kill. In the case of Alfred Tomlin, charged with gambling, defendant did not appear and his bond was declared forfeited.

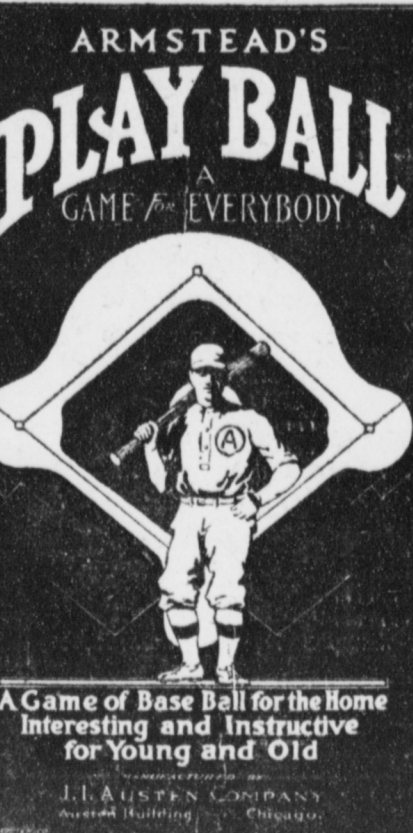

George and Samuel Mullikin were each fined \$100 for permitting chicken fighting aboard their "floating cocking main palace" on the bosom of the Ohio. Thos. Dryden, gambling. Bond declared forfeited as he failed to appear.

Master Commissioner A. G. Sulser made his settlement, which was confirmed and ordered recorded.

The Ripley National Bank was given judgment for \$191.63 with interest from March 24, 1914, until paid, against W. P. Osborne and others.

In the suit of John B. Shaw, of this city, against the C. & O. for \$50,000 damages for personal injuries, the defendant's attorneys made a motion for removal of the case to the Federal Court.

The court overruled the motion, and the defendant filed exceptions.

# MUNICIPAL OWNERSHIP

## City of Milwaukee Advised Against City Plant—Figures Given to Show That the City Would Save a Large Amount By Contracting With the Local Company

Every city or locality supplied with Public Service of Gas, Electricity, Water, etc., has problems of plant construction, cost and operating expenses peculiar to itself. A full and complete investigation and knowledge of all local conditions and requirements is necessary in every instance in order to judge the value of any comparison of costs and rates obtaining between different communities. Hence without this specific information comparisons are of value only in a general way, as tending to show whether rates are reasonable, based on good and approved practice, and whether relatively low or high.

In the past year and in connection with the consideration of a street lighting contract and proposition made to the City by the Milwaukee Electric Railway and Light Company, the lighting committee of the Common Council of Milwaukee, Wisconsin, addressed a communication to the State Railroad Commission, asking for advice.

The following are quotations from the Commission's report:

"The questions upon which information is especially desired and the general conclusions may be briefly stated as follows:

"1. IS THE SYSTEM OF LIGHTING, AS INFORMALLY PROPOSED BY THE LIGHTING COMMITTEE SUITED TO THE NEEDS OF THE CITY?

"It is believed that the adoption of a combined system of four ampere series luminous arcs and Tungsten lamps, substantially as proposed, would result in satisfactory illumination as measured by present day standards.

"2. WHAT WOULD IT COST THE CITY TO BUILD AND OPERATE A LIGHTING SYSTEM TO SUPPLY THIS SERVICE?

"The Commission's conservative estimate of the investment is \$1,493,758 and of the annual operating expenses \$273,053. Assuming that two Tungstens are equivalent to one arc lamp, as far as cost is concerned, the average cost of operation is found to be \$75.11 per lamp.

"3. WHAT SHOULD BE THE RATES IF THIS SERVICE WERE PURCHASED FROM THE PRIVATELY OWNED UTILITY?

"In arriving at the operating cost for service rendered by the privately owned utility, the estimated investment was divided between lamps on overhead and underground circuits. The difference in the cost as shown below is due to the difference in the fixed charges for the different investments:

4 amp. magnetite arcs on overhead circuits. \$54.91 cost per year  
80 cp. series Tungstens on overhead circuits 26.82 cost per year  
4 amp. magnetite arcs on underground circuits 75.68 cost per year  
80 cp. series Tungstens on underground circuits 39.37 cost per year

"As the computed costs include nothing for deductions because of unavoidable outage, and as the interest charges were determined on a very close basis, the suggested rates are placed at a slightly higher figure than the costs shown above. The following summary shows what the total charge to the city would be at these rates:

Arcs on overhead circuits. 2,227 @ \$55.00 \$122,485  
Tungsten on overhead circuits. 298 @ 27.00 8,046  
Arcs on underground circuits. 1,233 @ 76.00 93,709  
Tungsten on underground circuits. 51 @ 40.00 2,040

Totals 3,809 \$226,280

"The average rate, assuming two Tungstens equivalent to one arc lamp, would be \$62.25. It appears that the excess of cost of municipal operation over private operation is about \$46,773 per year.

"4. WHAT MATTERS SHOULD BE ESPECIALLY COVERED BY THE TERMS OF THE CONTRACT IN ORDER TO ESTABLISH PROPER RELATIONS BETWEEN THE CITY AND UTILITY DURING THE ENTIRE LIFE OF THE CONTRACT?

"The contract should specify the terms and conditions for the following matters:

- Period of contract.
- Kind and initial number of lamps.
- Burning schedule.
- Rates for initial lamps of each kind.
- Deductions for Outages.
- Rates for additional lamps during early life of contract.
- Rates for additional lamps ordered during

last three years of contract period.  
h. Location of additional lamps.  
i. Compensation for relocation of lamps.  
j. Substitution of different type of lamps."  
Later in the report of the Commission the several subjects are discussed more fully.

### QUESTION NO. 2. COST OF BUILDING AND OPERATING A CITY PLANT.

"The cost of constructing a suitable steam turbine plant and a distribution system to supply the lamps enumerated has been carefully estimated. The site chosen for the plant is the parcel of ground available for that purpose at Walker and South Water streets.

"The following table shows the summary of the estimated investment:

TABLE 1. "ESTIMATE OF INVESTMENT—PROPOSED MUNICIPAL STREET LIGHTING SYSTEM TO BE OPERATED BY CITY OF MILWAUKEE.

### QUESTION 3.

"In arriving at the cost of operating the privately owned utility, estimates were made for the same number of lamps as assumed for city ownership. Practically all of the equipment in the present system, except lamps, lamp equipment, constant current transformers and old arc generators, were considered usable in the proposed system."

The estimated investment of the company in the overhead system as it would be extended is shown in Table 4. Table 5 shows estimated investment for Tungsten or Mazda lamps on overhead circuits. Summaries of the estimate of operating expenses are set forth in Tables 6 and 8.

It is interesting to note what a small part of the actual cost per lamp is the cost of manufacture per K. W. at plant of current used by the lamps. In accounting for the ability of the Milwaukee Company to contract the lamps at a lower price per lamp per year than the cost to the city of building her own plant and making her own light, the reason assigned is that the Railway and Light Company is already operating an extensive electric railway system and has a large commercial lighting and power business, the joint operation of which reducing the costs and rates.

Under the estimates of the Commission the 4 Amp. magnetite or luminous arcs would cost, if supplied from another plant such as the Commission explains the city should install, if it undertakes the project, an average of \$75.11 per lamp per year.

The Commission says that the same number of lamps can be secured under contract with the Milwaukee Electric Railway and Light Company, or some other private corporation making equally as advantageous terms for \$62.25 per lamp per year, the total being \$226,280, or at a saving of about \$46,800 annually, compared with the operating expense of a municipal plant.

## TANGO MAD

Are the Old Ladies in London's Smart Set and the Young Men are Tiring of the Demands on Them.

London.—The afternoon tango fad is becoming wearisome to the young unmarried diplomats. The dowagers of society were reluctant to take up the new dance, but the craze has now become general among the old ladies, who do not intend to forego quickly the new lease which it has given them on youth. Hence the woe of the young diplomats, for the dowagers are giving countless afternoon dances to which they all are invited.

It would be fatal to the social careers of the young men to disregard them. The diplomats are the selected victims, not only because they are the natural dancing men, but because they have their afternoons free.

The dances have increased so that

many of the diplomats attend one daily. One young diplomat complains that neither age nor weight can keep the enthusiastic dowagers off the floor and he declared if he in tangoing with a duchess weighing 200 pounds and who in years had reached almost the allotted span, is not earning his salary he would like to know why not.

## KILLS DAUGHTER FOR A BURGALAR

Paducah, Ky., March 23.—Mrs. Jos. Wilson, of Boaz Station, shot and killed her thirteen-year-old daughter, Adele, thinking her a burglar.

There are said to be 125 ways of cooking eggs. All the brides we know have but one way: frying. After they have kept house a number of years they learn how to soft boil them. We once heard of a woman who knew how to cook eggs four ways, but we regarded it as a fairy tale.

## SERIOUS ERROR IN MAYSVILLE

Maysville Citizens Will Do Well to Profit by the Following.

Many fatal cases of kidney disease have reached an incurable stage because the patient did not understand the symptoms. Even today in Maysville there are many residents making the same serious error. They attribute their mysterious aches and pains to overwork, or worry, perhaps, when all the time their rheumatic pains, backache and bladder irregularities are most probably due to weak and ailing kidneys. If you are ill, if your kidneys are out of order, profit by this Maysville resident's experience.

Lang Stevens, Maysville, Ky., says: "My kidneys were out of order and I had backache, attended with pain, which extended into my kidneys. The kidney action was irregular. Doan's Kidney Pills had been used in my family, so I gave them a trial. They made me entirely better."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## FERNLEAF.

School has re-opened after a week's vacation with a good attendance.

Mr. and Mrs. Stuart have a new son since last week, the eleventh child.

A little stray dog, presumably a cunning pet, came to the house of Paris Prather last week and spent a few days then started over the country at large.

Mrs. Roscoe Griffith's sister has been with her since her recent illness, and they are now moved to their new home on the Barrett farm.

Mr. Calvin Haughaboo was a busi-

ness visitor in town Saturday.

The five weeks' meeting at Minerva has closed and the same ministers have started anew in Germantown.

The writer heartily approves of the article in last week's Ledger announcing the appearance of smallpox. It should be the business of the papers to inform residents of surrounding conditions. In this day rural delivery and telephones, news will be sent anyway. Besides much advantage can be found in these aids with some transportation to keep business at a pretty lively stage.

[The Ledger is pleased to say that there is no smallpox in Maysville.—Editor.]

## A VALUABLE SUGGESTION

Important to Everyone.

It is now conceded by physicians that the kidneys should have more attention as they control the other organs to a remarkable degree and do a tremendous amount of work in removing the poisons and waste matter from the system by filtering the blood.

During the winter months especially, when we live an indoor life, the kidneys should receive some assistance when needed, as we take less exercise, drink less water and often eat more rich heavy food, thereby forcing the kidneys to do more work than Nature intended. Evidence of kidney trouble, such as lame back, annoying bladder troubles, smarting or burning, brick-dust or sediment, sallow complexion, rheumatism, may be weak or irregular heart action, warns you that your kidneys require help immediately to avoid more serious trouble.

Many physicians claim that an herbal medicine containing no minerals or opiates has the most healing influence. An ideal herbal compound that has had most remarkable success as a kidney and bladder remedy is Dr. Kilmer's Swamp-Root by Parcells Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Maysville Daily Public Ledger.

Unidentified persons placed the picture of the Rev. W. H. Book, a prominent clergyman of Columbus, Ind., in the "rogues gallery" at police headquarters, in that city. The police disclaim responsibility.

## VERDICT FOR STANDARD

Jury Decides For Oil Company In Watson's Suit.

Paris, Ky.—In the Circuit Court the jury in the case of Charles Watson against the Standard Oil Company returned a verdict in favor of the defendant. Watson sued for \$5,000 for personal injuries sustained while in the employ of the company and at a former trial obtained a judgment. The case was taken to the Court of Appeals and the lower court reversed. The second trial was that of today.

## MASON COUNTY HEALTH LEAGUE

To Establish Free Dispensary and Clinic—Miss Casey's Department to be Given Full Medical Assistance.

An important step is contemplated by the executive committee of the Mason County Health League in the establishment of a free dispensary where medical attention can be given to persons too poor to pay for such attention. The need of such an institution is shown in following up the records of the recent medical inspection in our schools and the work of Miss Casey, the visiting nurse, discloses many more cases.

The physicians of the city have been asked, through the local Medical Society to specify days on which they will give some time to the work and it is hoped that a little later certain times can be set aside for dental work.

The great tonic and stimulating properties of Sunny Brook have had much to do toward making us the largest distillers of fine old whiskey in the world. For nearly 50 years Sunny Brook has proved of real value to those who now and then require an energizer. When energy is lacking efficiency is lacking. Rare, old and mellowed whiskey like Sunny Brook, acts as a great up-builder; and makes life worth living.

Sunny Brook is Bottled in Bond—every bottle is sealed with the Government Stamp showing that the contents are genuine, straight natural whiskey, U. S. Standard (100%) proof. This stamp, however, only assures purity, but not quality. Any whiskey Bottled in Bond is genuine straight whiskey, but not all straight whiskeys are good whiskeys. When you select Sunny Brook—The Pure Food Whiskey—then you know that in addition to the assurance of Absolute Purity by the greatest government on the globe you have a guarantee of Unexcelled Quality by the finest distillers of fine whiskey in the world.

(Dover News.)  
What's the matter with Dover? You just can't get ahead of her? She has streets of pearl. She has sidewalks—well, we'll say nothing about that. A few weeks ago a \$20 gold piece was found in a snowball. A few days ago a young lady kicked over a rock and found a \$5 bill snugly tucked away. Can you beat it? Is there another place like it? Oh! It's a fine place to live! When your rent comes due just step out and make a snowball and fire it at your landlord. When groceries run low, go out and kick over a rock. When you have company and want to "put on a little dog" hike to the street and gather a string of pearls. There is only one thing we can't have, and that is a food.

**YOUTH IN OLD AGE**  
Possible With Proper Care.

A few generations back a man at 50 was considered old, gray-bearded, and waiting for death. Note the change today; at a meeting of the Medical-Legal society it was stated that a man of 50 ought to have forty good years ahead of him and, thus at ninety he is in the fullness of maturity.

What if you have seen sixty, or even seventy birthdays—temperate habits, fresh air and exercise, with a simple diet and a sufficient amount of sleep will guard your health.  
If perchance, your circulation is poor, if you become run down—weak and no appetite—nothing in the world will tone up those tired back-sliding organs—enrich the blood and create strength so quickly as our delicious cod liver and iron tonic Vinol.

We ask every feeble, discouraged old person in this vicinity to try Vinol on our agreement to return their money if it fails to give satisfaction. J. C. Pecor, druggist, Maysville, Ky.

**Farmers**

Have you ever tried our way of borrowing money to pay for a farm?

You, of course, know that most farms are sold for one-third cash and the balance of the payment is represented by lien notes due in one and two years. You also know that there are times when it is impossible to pay these notes when they become due.

Our specialty is lending money on good farms for LONG PERIODS. Wouldn't you rather have five years to pay the balance than two years? Any one expecting to buy farms this March will do well to come in and consult us about getting the money.

We have been giving satisfactory service for 24 years.

**ELECTRIC SIGNS!**

The distinguishing air of quality which a first-class Electric Sign gives to a store is the element which gives a sign its greatest value as an advertising medium and investment. The impression it makes is good. It blazes forth to the public that there is business enterprise, merchandise and methods up-to-date. It affects the entire atmosphere of the business district. The stranger says, "It is a live town," and publishes it abroad.

It is the Sign of the Times.
